ABOUT ME

I am a fresh graduate from Universitas Tiga Serangkai, majoring in Informatics Engineering, with a strong passion for pursuing a career in team management and project supervision. During my academic years, I was actively involved in a scholarship recipients' organization, where I was entrusted to serve as the Chairperson. Under my leadership, the organization successfully held its Anniversary Celebration (Dies Natalis), which was attended by the Regent of Sukoharjo and several local government officials at the Education Office Hall of Sukoharjo Regency. This experience honed my abilities in leadership, coordination, and event management, while also strengthening my confidence in managing people and responsibilities.

In addition to organizational involvement, I continuously sought opportunities to broaden my practical experience across various fields. I have served as a Service Staff at the ASEAN Championship U-16 Boys and during the National Conference of Jokowi D'Colomadu held in July. I also worked as a Kitchen Staff at SFA Steak & Resto for three months (May–July) and later advanced to a Supervisor role at Ayame Geprek DR.R for one year, from September 2024 to September 2025. Alongside my studies and professional experiences, I frequently took freelance roles as a waiter at weekend events, which allowed me to develop essential soft skills such as communication, time management, and teamwork. These diverse experiences have shaped me into a disciplined, adaptive, and service-oriented individual who thrives in dynamic environments and values collaborative success.

Currently, I am participating in a program from the Ministry of Manpower through Maganghub at PT. Tiga Serangkai as a Web Fullstack Programmer (PHP). This role gives me the opportunity to be directly involved in web application development.
